

# EPRM NEWSLETTER

This newsletter is being sent to all individuals with an EPRM account on behalf of the current program manager: Mr. Shawn Quillen, shawn.quillen.1@us.af.mil

## SURVEY MONKEY

As we previously mentioned, EPRM is getting an extensive update in early 2025. We are seeking feedback to understand the priorities of all EPRM users. This survey will take less than 3 minutes and will guide our future development; we appreciate your input: Survey was open to those that received the newsletter via email.

### Included in this Newsletter:

- Survey Monkey
- Live Training Webinars
- MARMS
- Seeking Volunteers
- EPRM Help—Modernized Site
- How to Get an Account

## LIVE TRAINING WEBINARS

We will be hosting periodic, scheduled LIVE training webinars that will cover each of the EPRM modules (e.g., OPSEC, AT/FP, etc.). The first of which will be hosted in July, details below.

Subject Covered: EPRM OPSEC

Date: 29 July 2024

Time: 1400-1500 Eastern Time

Who should attend? Anyone that is interested.

How do I attend? Email [EPRMhelp@hii-tds.com](mailto:EPRMhelp@hii-tds.com) for an invite to the webinar.

## MARMS

The Antiterrorism Force Protection (ATFP) module in EPRM is being updated to include the 2023 DoD Benchmarks. We had anticipated the update being applied in July, but updates are still being finalized. Updates will be pushed to SIPR in early fall.

## SEEKING VOLUNTEERS

As mentioned in the last newsletter, the modernization of EPRM will require testing and early implementers. If you would like to test the application and provide preliminary feedback, please send an email to our user support team. Preliminary testing is expected to begin in late summer/early fall. Testers will receive instructions and access to the testing environment. Feedback will be used to ensure the tool is meeting the needs of the field. If you already volunteered – thank you!

## EPRM HELP – MODERNIZED SITE

User guides and help videos are available on the recently modernized EPRM Help page:

<https://eprmhlp.countermeasures.com/>

Old and new Newsletters will be posted on the EPRM Help website moving forward.

## MARMS

The Antiterrorism Force Protection (ATFP) module update is on schedule and is anticipated to be pushed to SIPR in early fall– this update will include the 2023 DoD Benchmarks.

## EPRM MODERNIZATION

As previously noted, the EPRM application is being re-engineered and will move to the cloud. We expect users to be able to log into the modernized SIPR site in Summer 2025.

## SEEKING VOLUNTEERS

As mentioned in previous newsletters, the modernization of EPRM will require testing and early implementers. To those that have already signed up to participate in the testing – THANK YOU. The current plan is to have email communications start going out to testers in fall. We would expect the actual testing to start in the new year (early 2025). The dates are not yet firm.
