ADD YOUR PROGRAM TO THE ASM WORKBENCH

The ASM Workbench is now live. The workbench makes it much easier for users to navigate across all aspects of their program. The first step is using ASM is adding your program to the workbench.

This job aid focuses on adding your program into the ASM workbench.

1. Login into ASM.
2. Click on the **Create button**.
3. **Complete the questions**.
4. Click on **Save**.
5. Your program will now show as a row in the jqGrid.
6. **Double click on the row** to open the program.

Once your program is created in the ASM workbench, you can navigate to and from the workbench to surveys, files, and points of contact.

If you have any trouble, please contact the EPRM Help desk at
